MEMORANDUM FOR : Deputy for Field Activities, Office of Special Activities

SUBJECT : IDEALIST Briefing for CIA Inspector General Survey Team

Please arrange for an IDEALIST briefing, with special reference to "I" activities in the Far East, for the following four members of the Inspector General's survey team scheduled to depart for the Far East on 13 September:

25X1A

25X1A

I have asked Security to verify the clearances of these gentlemen and to prepare advisories to the Field Stations affected concerning their clearance status. The briefing should be held on 11 September at 1530 hours in the Control Center on a format of approximately forty-five minutes.

25X1A

The principal concern of the IG team with regard to IDEALIST is the amount of support derived by this Project from FE resources overseas. I would be especially appreciative if you would include [] in your briefing, since a large part of the success in the Far East is directly a function of our excellent communications support in part drawn from resources outside OSA.

25X1A

Please coordinate your plans with [] of Security.
